

## Virginia Beach Associates Partner with Soap Chips

Our Virginia Beach office raised \$300 for Soap Chips during the 3rd quarter of 2019 through Friday Jeans Day. Along with a company match, they were excited to present to Soap Chips a check for \$600.

Soap Chips is an organization, founded by Clay Culbreth, a Virginia Beach office commercial associate, and his wife Kathy. Soap Chips provides clean, warm, comfortable showers to those in need. They are 100% portable and go wherever there is a need. Soap Chips is always accepting volunteers, donations, and supplies, all the bare essentials we sometimes take for granted.

*"Clay Culbreth is very dedicated to this organization that he founded. His generosity helps many homeless people with a place to go and get a shower and freshen up, get toiletries and have social connections with many of his volunteers. I had the privilege of being a volunteer over the summer and it was very gratifying."*
