

FRIDAY, MAY 9TH, 2022 CONSTRUCTION BUILD SITE

A Richmond team of eight put in a lot of hard work at a Richmond Habitat for Humanity construction site this past Friday. We helped to finish up the exterior of the build site and then wrap it with Tyvek - no small feat and interestingly enough had the perfect amount to finish the wrap! We then moved inside and helped to build a closet, remove/cut all of the old wiring, pulled nails from ceiling beams to get it ready for drywall, and general clean up of the interior. Big thanks to Lee Warfield for delivering lunch! *Participants: Ian Riester, Adam Holbrook, Paula English, Catrina Scanlan, Frankee Rivera, Gregg Beck, Kristen White, Olivia Garber.*
